High power without sacrificing energy storage Ability to recover without capacity loss from a complete discharge Higher levels of operational abuse tolerance than

Nano power solution uses Altairnano"s battery modules, which are ideal for hybrid or full electric transportation vehicles.

Lithium cell with lithium titanate oxide, 33Ah capacity. The LTO-33Ah cells are manufactured fully automatically under high quality requirements. This guarantees consistent performance. All batteries

Altairnano has achieved a high-powered energy storage and battery system that has significantly greater thermal stability than any other lithium-ion battery in the market.

Get measurement data, a high-precision model and a detailed report of the lithium-ion battery cell Altairnano 33Ah Cell.

El Batemo Cell Model de la celda de batería de ion de litio Altair-nano 33Ah Cell es un modelo de celda física de alta precisión con validez global. Como gemelo

?Modelo: ELAR-33-12 ?Selladas Libre de mantenimiento ?Capacidad: 33 Ah @ 20Horas ?Voltaje: 12Vdc ?Dimensiones (mm): Largo 195 x Ancho 130 x Alto 180

Gree Altairnano New Energy Inc., established in 2008 and headquartered in Zhuhai, China, is a global leader in new energy solutions, specializing in lithium titanate (LTO) batteries.

Encuentra la mejor batería de respaldo de 12V, 33AH con tecnologías AGM/VRLA. Con una vida útil de 5 años y terminales NB3 reconocidas por UL.

Altairnano celda de 33ah

Altairnano offers a battery management system for electric grids, heavy-duty vehicles, and transportation, incorporating nano lithium titanate (nLTO) cells.
