Headquartered in Shanghai with 50,000m<sup>2</sup>+ production bases across Jiangsu, Zhejiang, and Guangzhou, the company employs 1,000+ professionals, including 20+ engineers driving energy

Explore leading solar inverter manufacture offering residential and commercial PV and storage solutions. Sign up for updates and support.

Battery storage systems bank excess energy when demand is low and release it when demand is high, to ensure a steady supply of energy to millions of homes and businesses.

Headquartered in Shanghai with 50,000?+ production bases across Jiangsu, Zhejiang, and Guangzhou, the company employs 1,000+ professionals, including 20+ engineers driving energy

Leading provider of solar batteries, lithium batteries, 20ft/40ft container energy storage systems, custom photovoltaic folding containers, and complete energy storage solutions across Poland and European

Expert in energy storage system capacity planning, energy storage system maintenance, battery lifespan optimization, solar power generation standards, and solar PV policy guidance. Request an

More than 50% of the world's vessels with zero-emission technology are equipped with Corvus Energy systems. That's equivalent to over 1,100 years of operation. Commitment to innovation and

Our certified solar specialists provide round-the-clock monitoring and support for all installed photovoltaic container systems and battery energy storage containers.

We target the least resource-intensive technologies and are committed to better battery traceability

# Avaru Special Solar Container Battery Company

and the optimized use of raw materials. We use batteries to increase the penetration of renewable

Based on an average power consumption of a 4-person household of 4000 kWh per year and a location in Southern Germany, the solar container can supply approx. 32 households with climate-friendly
