Descubra los sistemas de almacenamiento de energía con enfriamiento líquido todo en uno de alta capacidad de GSL ENERGY, desde 208kWh hasta 418kWh. Diseñados para ESS comercial e

The ORI energy storage system combines a 2.5 MW PCS and a 5.015 MWh battery system with a containerized design. With high-quality LFP battery cells and advanced liquid cooling, the large-scale

Support multiple and parallel single outputs, easy power expansion for bidirectional energy storage converter unit and battery unit Support the parallel networking of multiple sets of equipment Built-in

The liquid cooling system ensures higher system efficiency and cell cycling up to 10,000 cycles. The liquid cooling system reduces system energy consumption by 20% and extends battery life by 10%.

Discover GSL Energy's advanced liquid cooling energy storage systems for commercial and industrial applications. Scalable to 5MWh, certified by UL, CE,CEI and IEC.

With a power output of 1MW and an energy capacity of 2.5MWh, this system delivers reliable, efficient, and scalable energy storage for peak shaving, renewable integration, grid support, and backup power.

1P48S/1P52S/1P104S Liquid cooling Energy Storage System Plug-In Box have common characteristics: high energy efficiency, flexible system expansion, stable discharge, etc., suitable for industrial and

5KW horizontal plug-in liquid cooling unit for battery energy storage systems (BESS). Integrated liquid cooling solution with intelligent control, RS485 communication, and efficient battery thermal

# Energy storage liquid cooling plug-in box

All-in-One Battery Energy Storage System Liquid Cooling BESS On& Off Grid  
125KW/261KWH,built-in PCS,MPPT, IP54.All-in-One BESS.

CNAE focuses on sodium-ion battery R& D, production and sales, providing power battery and energy storage solutions
