Word Count action script button All credits to whoever did the javascript for the wordcount. My only contribution here is the merging part using Adobe Acrobat Reader Mobile app. Just remember, once

Use word count Open the Google Docs app . Open a document. Tap More . Tap Word count to see the number of: Words Characters Characters excluding spaces Note: Unless you select a certain part of

Word count is only available for Google Docs. Unless you select a section of the document, word count applies to everything except headers, footers, and footnotes.

Word count includes everything except headers/footers and footnotes. That is standard for text apps, including Docs and Word. There isn't any way to include footnotes in the word

Here's a workaround that's more accurate than doing a search & replace for the space character. Export an InDesign document as a PDF. Open the PDF in Adobe Acrobat. Export

With the new tabs option, how can I see the word count for the entire document? Tabs is a new and cool thing. It makes long documents easier, such as when I type up stories.

I've highlighted text in my Illustrator document, then navigated to the info panel to get the Word Count. No matter what I try, I can't figure out where my Word Count and Character Count went. I've

Gabinete de telecomunicaciones exterior de 600 kW para sitios de perforación

Count the number of words while you type Tip: Use this feature for shorter documents, like news articles or school essays.
