Malta's utility-scale, long-duration energy storage system uses steam-based heat pump technology to deliver dispatchable, cost-effective energy.

Malta's premier solar battery solution for complete home energy independence. Highest-rated efficiency, longest warranty, and unmatched reliability for Maltese homes and businesses.

Malta's energy system remains heavily dependent on imported fuels, with only a small proportion of electricity generated from domestic renewable sources (about 9.2% in 2024, mostly photovoltaic)

Malta's sunny climate makes it a perfect candidate for photovoltaic solar energy, but the real game-changer lies in combining solar panels with advanced energy storage systems.

Malta's grid-scale, long-duration energy storage system helps governments, utilities, and grid operators transition to low-cost, carbon free renewable energy while enhancing energy security.
